Sometimes, you just have to mix things up. Combining multiple decorating techniques to create a trendy, vintage look, Northeast Stitches & Ink creates unique, interesting designs using a mixed-media approach, making shirts any customer will enjoy. "Pairing a laser appliqué with screen printing creates a vintage, destroyed look our customers have come to love," says Deana Endieveri, owner of Northeast Stitches & Ink. "With Lake Placid being a popular destination for many of our customers, it was the perfect design to include on this shirt." Pitch these awesome shirts to vacationers, college kids, music lovers and even business moguls, because these days, vintage rocks. RSN #151
